MAURICIO ROMERO

SOFTWARE DEVELORPER

WORK EXPERIENCE

Front-end Developer
Esto Es | www.estoes.me | 2022 - Present

- Esto Es partner startups, corporations and organizations to create and transform technical needs in to valuable and functional experiences for customers.
- As a Frontend Developer, I am part of a team responsible for maintaining institucional site of Telecom and develop internal tools for their custom design system that bring a better experience to developers. I daily use technologies such as Next.js, React, Git, AWS, and more.

Front-end Developer
Alkemy | 11/2021 - 1/2022

- I worked in a team with eight programmers and a team leader developing a website for an NGO using agile methodologies.
- The application consists of a main page and its corresponding backoffice for its administration. Fully responsive, with a text editor for news and a donation service.

EDUCATION

Responsive Web Design
freeCodeCamp | 2018

- Responsive Web Design Certificate provided by the freeCodeCamp platform representing approximately 300 hours of study.

Industrial Engineering (Unfinished)
UNR | 2015

- I got a solid foundation in software development during the first year of my degree.
- I learned from the fundamentals of computer science to programming with the C language.

COMPLEMENTARY SKILLS

Communication
- Due to my religion I find myself frequently preparing and presenting educational and informational speeches.

Handling and resolution of issues
- Providing maintenance to hardware and software leads me to be in constant search for solutions, many times without user feedback.

Good management of interpersonal relationships
- Participating as a volunteer in the organization of assemblies I have had the opportunity to train myself in the management of teams of people.
